

75 Clara Barton Health Ride Dansville, NY

Distance 5.2 miles

Difficulty ★☆☆

Clara Barton started the American Red Cross in Dansville and the 1st working chapter is still in operation today. This healthy little ride takes you on side streets, pass the Dansville Historical Museum, along Main Street and up towards the site of the former "Castle on the Hill." The building is still glimpsable on the hill. Once the home of a nationally known healing spa and where Ms. Barton came to regain her health after the Civil War. A little known fact: it was also the place where granola was created, known then as "granula." Now there's a "healthy" ride.
